November 2022

Keith Green  
Long Island Swimming

To whom it may concern:

I am writing to first of all thank you for your kindness, hard work and endless effort to ensure that our Gulf Coast Swim Team families as well as Lee County School District staff, students and families are taken care of during their time of need. I know it is cliché but I am so proud of how our community, swimming network all came together to help us get back to some part of "normal." Your generosity gave many of our swimming families and Lee County employees within our Fort Myers area a feeling of hope and pride in themselves, so they can better serve and have a sense of normalcy during this time of crisis.

On behalf of the Gulf Coast Swim Team and South Fort Myers High School, we would like to sincerely thank you for your contribution of financial funds/gift cards for day to day essentials. As a result of your generosity, families can afford to purchase shoes, clothes, food, home and school supplies based on their own personal needs. Some of our students and swim team families have unfortunate living situations and cannot afford school preparation items in order to be prepared for the academic year at hand; these funding opportunities allow them to broaden their scope in the educational setting and encourage growth for their future.

It is always difficult to determine which worthy cause out of so many deserves the most attention at any given moment. We are particularly honored that you chose to support Gulf Coast Swim Team and South Fort Myers High School in such a special way and continue to give back to anyone and everyone that we come across week by week. We are extremely grateful and truly believe that our paths crossed for a reason during such a devastating, critical period of time in our lives.

Thank you again for your substantial support of Gulf Coast Swim Team and South Fort Myers High School as well as the Fort Myers community at large. We are forever grateful!

Respectfully,

*Jennifer Seluk*

&

*Don Henshaw*
